

*Recycling Petition:*

**As a resident of the Florida Keys,  
I support local and state efforts to boost recycling efforts and reduce waste.**

	Yes	Maybe	No	Don't Know
I support having a standardized, wide variety of items to recycle.				
I want my yard waste to be mulched and made available.				
I support decreasing trash fees for those who don't waste much.				
I support increasing trash fees to improve recycling for residents				
I support increasing trash fees to improve recycling for businesses				
I support our local governments working together to make recycling easier and more cost effective.
